Mobile Phone where you can be reached on event day _____

Email _____

Name of Publication _____

Website _____

Social Media Handles _____

Name to be used when crediting a photo _____

Please indicate the nature of your request

Signature _____ Date _____

By signing this request form, you agree to abide by both venue rules and any additional rules outlined by the artist. Violation of this agreement is grounds for immediate dismissal from the event and permanent removal from any future media/photo requests. By signing you are also granting permission for Anderson County to use your photos to promote the event, the venue, or the County in any format at any time without compensation. Photos credits will be given where possible.

Process for approval when requesting photo passes or interviews for concerts / major events.

Requests are gathered and submitted for approval to artist management. If approval is granted, you will be notified via email. For those approved to photograph the concert: You may meet at the box office of the Civic Center no earlier than 1 hour prior to gates/door time but before the concert/events begins. **Additional rules from the artist will be given to indicate where you may shoot and for how long.** Typically you will be limited to the first 3 minutes or the first three songs. Your equipment will be tagged, and you will receive a credential which must be worn during the event. After the designated time to shoot photographs is over, you must pack your equipment up and leave the designated photo area. Parking will not be specifically arranged unless otherwise noted in your approval email.

House Rules that apply to all photography taken during events at the venue:

- Wear creds above waist where they can be easily seen
- No access to backstage, dressing rooms, offices, busses – do not ask and do not go into these areas with or without equipment
- Meet and Greet access must be specifically granted – this is not open to all photographers
- No drone footage will be approved when patrons are in the venue.
- Immediately following the event, please submit 3- 5 of your best photos to: acole@andersoncountysc.org

Please note: Photos and articles after the event are very appreciated but they do not help promote the event or build excitement around the event. Great effort is made to attract promoters and artists to the venue and to Anderson County. We appreciate media effort and attention prior to the event and work to reciprocate, when possible, by allowing event day photography when approved by artist management.

Advance features that help us tell interesting story angles about: the event, the venue, economic impact, tourism, the promoter as well as the artist are welcome and encouraged. We will be glad to help you with these requests.
